Some people keep it—

Now Science says:
No one should lose the joy of real health

We have all known people—some in their forties and fifties—who still keep the vigor and animation of youth.

Yet many of us—nervous, "run down," irritable even in our twenties and thirties—fear we have lost it forever.

Why the difference?

Health and vitality should be *natural*, not exceptional; sickness and weakness are always due to some violation of Nature's law.

The two most important needs in the world

What we call "life" is really a double process. First, the living cells that form our bodies must be constantly fed and nourished. Second, the poisonous waste products that accumulate must be regularly removed.

Check either of these processes even temporarily, and the body is weakened. Premature age, intestinal disorders, skin disturbances, and all the ills we attribute to "run down condition" are the result.

The fresh, living cells of Fleischmann's Yeast contain a natural food—with the very elements which help the body perform these two vital functions: help it to *secure its proper nourishment*, and help it to *keep the system clean*.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh.

"Nervous, 'run-down,' irritable—even in our twenties and thirties"

Fleischmann's Yeast is a *food*, not a *medicine*. It does not act overnight—Nature does not work that way. *Results cannot be expected unless it is eaten regularly.* Eaten regularly day after day, it helps to "tone" up the whole system and assures regular daily elimination.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

Eat two or three cakes a day. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means. Be sure you get Fleischmann's Yeast. All grocers have it.

FLEISCHMANN'S YEAST builds health naturally and permanently

An absorbing free booklet tells what Fleischmann's Yeast has done for others and can do for you. Send this coupon for it today.

Here's What a BOHN SYPHON REFRIGERATOR Will Do—

Clean, Cold, Dry Air

The rapid air circulation produced by the "Bohn System" insures perfect ventilation, holds the temperature very low and prevents impurities from air or ice settling upon the food. The air is so dry that even soda crackers retain their crispness.

No Mingling of Odors

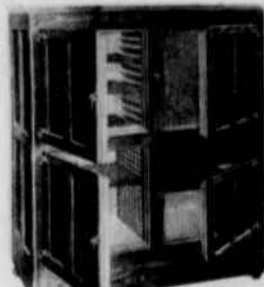

The odors from the foods are picked up and carried away in the never-ending circulation of air. It is stagnant air in a refrigerator which mingles the odors and is a menace to health. The air is always fresh, pure and circulating in a Bohn.

Low Ice Consumption

When you purchase a "sweat-box" refrigerator you are going to pay unnecessarily high ice bills as long as you use it. It is damp air which melts the ice so rapidly. The Bohn keeps the temperature the lowest and uses less ice than any other refrigerator ever built.

The Railroads of America Endorse These Statements
They use the Bohn Syphon in Dining Cars, Refrigerator Cars, etc. Could they afford to use anything but the best and most economical Refrigerator?

Every Bohn Syphon Refrigerator is as near perfect in manufacture as the world's largest refrigerator plant can make it. The "Bohn System" of ventilation, scientific insulation ("Flexilum"), fused-steel porcelain lining, magnificent exterior construction, and a finish, front drain (instantly removable for cleaning), all combine to make the world's best Refrigerator.

You need a good Refrigerator in winter even more than in summer—avoid the dust and impurities of the outside air. The air in a Bohn is practically filtered. Some fine models now marked at low prices. Refrigerators from \$25 up. Later delivery if desired. If you cannot call, phone or write for illustrated catalog.

Bohn Refrigerator Shop—5 East 46th St.
(The New Straus Bldg.) 3 Doors East of Fifth Ave.
